

Clallam County Pilot's Association Special Presentation

What: Establishing Your Own Safety Strategy
When: January 21, 2012 - 10:00 AM to 12:30 PM
Where: KCLM Port Angeles Terminal Building
Presenter: Skip Moshner, ATP, CFII

This presentation will introduce the pillars of safety management, and many of the tools, resources and emerging best practices in place throughout the aviation industry.

The discussion will demonstrate how many of the safety attributes used in commercial aviation may be scaled appropriately to benefit general aviation. Attendees will discuss safety from a risk and hazard perspective, and focus on proactively and preemptively preventing incidences, rather than responding to events after they occur.

Skip Moshner is a Director of Flight Operations for Galvin Flying Services with over 13,000 flight hours and 20 years experience in the aviation industry. His focus on safety management and proactive analysis is an essential asset in his role as an airline and general aviation pilot examiner.

Free airplane and vehicle parking at the airport.
