## At Our Last Meeting

Jordan Vaughan gave an introduction to the use of the iPad in the cockpit to a standing room only crowd at Coldwell Banker on November 15. Useful apps can be more easily downloaded to an iPad than to other electronic devices permanently wired into a virtual cockpit. Participants shared their experiences freely with others as several apps were discussed. One of the problems encountered was finding space for an iPad with most pilots mounting it on the yoke. This was the best attended meeting so far this year.

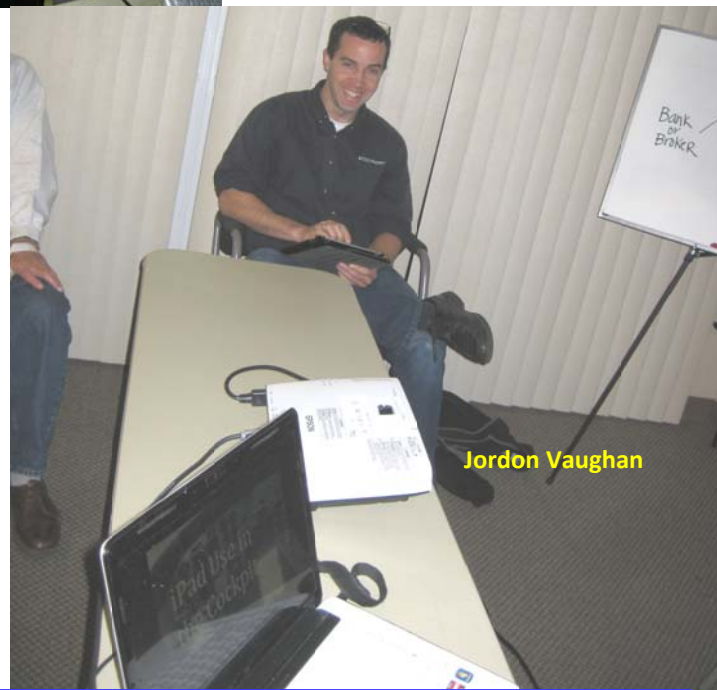

When we have popular meetings like this, we attract new members.

WELCOME NEW MEMBERS

Robert Converse

John Meyers and his wife who is also a pilot.

Mark your calendars now for a road trip to the Aviation Conference and Trade show at the Puyallup Fairgrounds, Saturday, February 23rd. Last time we attended this conference as a group we rode in the Coldwell Banker "Van". On the way we had donuts and coffee. At lunchtime we attended the WPA annual meeting and we were treated to lunch. We will again be taking the "Van" in 2013. However, the "Van" only holds fifteen paying customers. So if you wish to come with us, please call Jerry and reserve your seat.

Dava McNutt has offered her resignation to the CCPA executive board. She cited her busy schedule at work as a reason. Those of us who have worked with Dava during the last four years know that often after an evening executive board meeting, she walks across the alley to return to her job, and then continues more work there. We of the executive board have appreciated her contribution to CCPA.

Correction: Paper Pilot Certificates  
Notice Number: NOTC4466

Oops! We made a mistake in a recent Notice. Here is the revised Notice.

If you have already replaced your paper pilot certificate, then this message is not for you. On the other hand, if your pilot certificate is still printed on paper, please read carefully.

The FAA is under a mandate to replace all paper certificates with plastic certificates. In fact, paper pilot certificates have already expired!

If you are a mechanic, on the other hand, and do not replace your paper certificate on or before March 31, 2013, you will no longer be able to exercise your privileges!

All certificated Airmen, including mechanics, repairmen, pilots, etc., are required to replace their paper copy with a plastic copy, or they will no longer be able to exercise the privileges of that certificate.

The best way to get a new replacement certificate is to follow the instructions at [http://www.faa.gov/licenses\\_certificates/airmen\\_certification/certificate\\_replacement/](http://www.faa.gov/licenses_certificates/airmen_certification/certificate_replacement/).

The replacement cost is \$2.00, unless you still have your Social Security Number on your certificate and you ask to have it removed.

Avoid the Rush! Apply today!
