(Edit as needed. I had a part-time pen in hand) PZ

The Nov 10, 2016 meeting of the NorthSound chapter was called to order by President Robert Powell at 7 PM. He gave a reminder to send in nominations for officers for 2017. If no nominations are received, the present officers have agreed to continue another year.

The holiday dinner in conjunction with the EAA chapter will be on Dec 8 at Windows on the Bay. Price is \$40 ea. and the speaker will be Lance Johnston, a former U-2 pilot and now a 747 pilot for UPS.

Aaron Collins updated activity at KBLI. Trees are being removed at each end of the runway. Paving is now complete, which was funded 90% by the FAA. There are plans to move forward on obtaining a web cam. Since the \$5000 grant from the FAA will take too long to receive, security cameras already owned may be used instead.

Management of the GA building has been turned over to the two FBO's on the field, and management of the hangars and tie downs are offered to them as well. Hangar rents will be going up on 1/1/17. A discussion ensued about who will have jurisdiction over the management of the hangars/tie-downs.

The speaker for the evening was Thomas Little, senior investigator at the regional NTSB office in Federal Way.
