The March 9, 2017 meeting of the NorthSound chapter was called to order by Kelly Beerman, in the absence of President Powell, at 7 PM. The marble game was enacted and won by Chip LaPlante, although no bonus amount was achieved.

Kelly congratulated Kristen Martin and Leslee Probasco for the website work that has been done.

Tonight will be the last meeting at the WECU site which we have enjoyed for quite a while. The Port of Bellingham has offered the use of their conference room for future meetings, although space may be tight for a large attendance. It is located near the Command Aviation hangar at 2005 W. Bakerview.

Webcam equipment has been procured but not yet set up. Images will be found on the port's website, but an appeal was made to get it on WSDOT's site in the future.

The program was given by KPAE tower chief Jeanette Elkins, and Seattle approach controller Jeremy Noble. Procedures at KPAE, as well as those needed to ensure safety in the busy approach corridors of KSEA and KBFI were pointed out. Use of flight following was encouraged and welcomed.
