The June 8, 2017 meeting of the NorthSound chapter was called to order by acting president Chip LaPlante at 7 PM. An appeal was made to those in attendance to join WPA, if not already a member.

An email was received by Chip from Jerry Ward of the local EAA chapter, asking for volunteers for an EAA event on July 22. Also, is there any more thought for NorthSound having a summer BBQ?

Don Muir and Paul Zosel related their recent experience with obtaining a BasicMed medical certificate. Two physicians that we know of are willing to participate in granting the certification, one in Lynnwood and one in Bellingham.

Chip called for anyone interested in becoming involved in the chapter leadership to consider this, as elections will be held in November.

Aaron Collins reported that 270 people enjoyed the June 3 National Trails Day event, on the trail extending along the west side of the airport. He thanked those of the WPA who were on hand to give their support.

The airport webcam is now in operation, accessed via the Port of Bellingham web site. Some experimentation will be undertaken to determine the best view, as there is only one direction possible.

The program for the evening was given by Mike Schoonover. He described the flight he and his grandson made in 2011, landing in 48 states in 7 days.

Paul Zosel,
Secretary
