Sandy Kitchas (CFI)
What Makes the Airplane Fly?

Lisa McCorry (ATC at GEG)
Communications

Paul Dickerson
Charts and Stuff

Optional Materials: \$10.00

Lunch will be available for \$5.00 per person

Both courses are being given concurrently so that both the PIC and their companion in the right seat can ultimately benefit by working together for less stressful and consequently a safer flight environment. On Wednesday May 17th at the monthly WPA meeting, we will have a dinner program to bring the WINGS program and the PCC program together. On Saturday May 20th our monthly fly-out will be designed as an event where both the PIC and their PCC participant can utilize what was learned the previous weekend.
